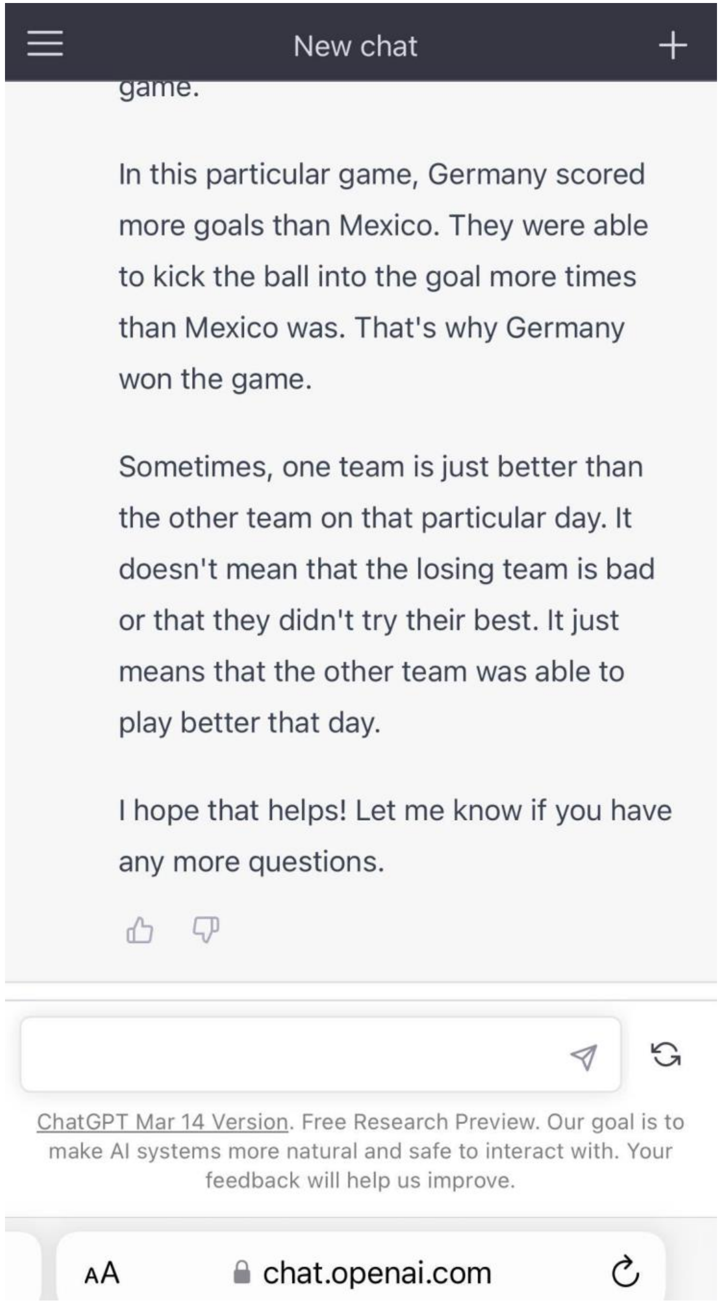
E Explain a kid of five years old why Mexico soccer team lost againts germany in 1986

Hello! I'll do my best to explain this in a way that a 5-year-old can understand.

So, in 1986, Mexico and Germany played a soccer game against each other. Now, when two teams play a game, they try to score more goals than the other team. The team that scores the most goals wins the game.

In this particular game, Germany scored more goals than Mexico. They were able to kick the ball into the goal more times

ChatGPT Mar 14 Version. Free Research Preview. Our goal is to make AI systems more natural and safe to interact with. Your feedback will help us improve.



game.

In this particular game, Germany scored more goals than Mexico. They were able to kick the ball into the goal more times than Mexico was. That's why Germany won the game.

Sometimes, one team is just better than the other team on that particular day. It doesn't mean that the losing team is bad or that they didn't try their best. It just means that the other team was able to play better that day.

I hope that helps! Let me know if you have any more questions.

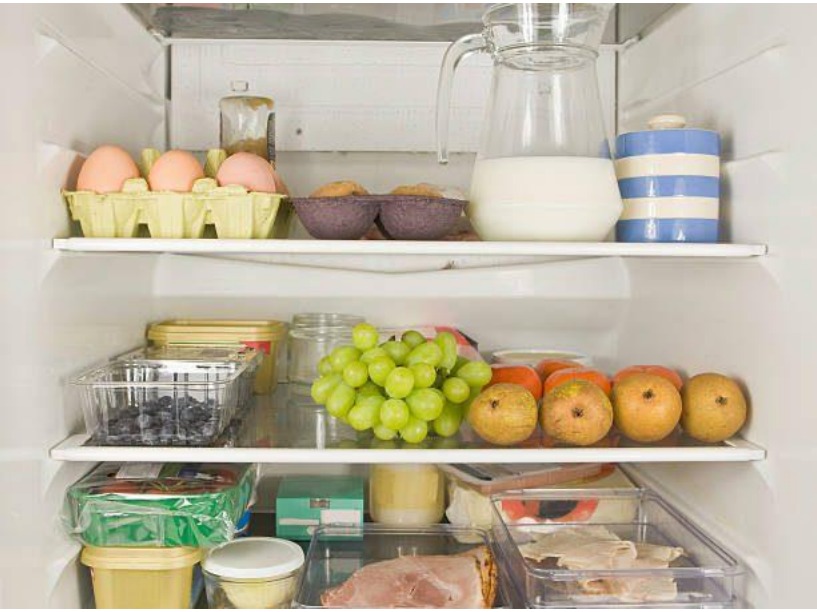
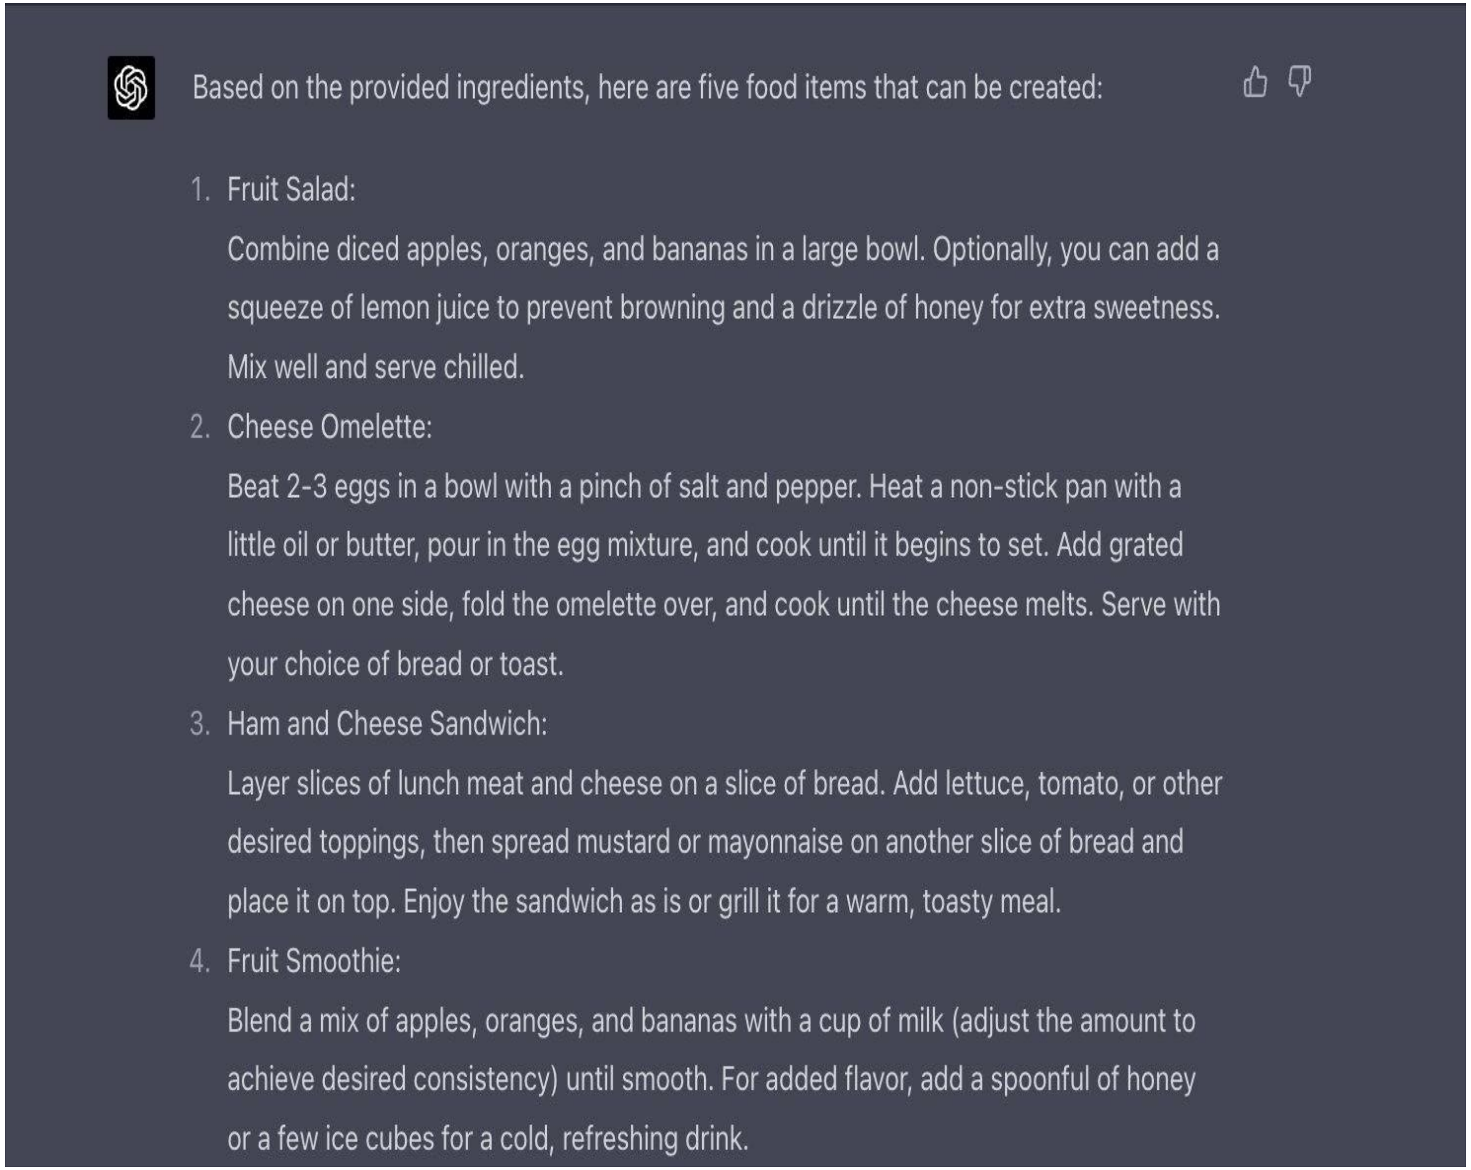
ChatGPT





Based on the provided ingredients, here are five food items that can be created:

1. Fruit Salad:

   Combine diced apples, oranges, and bananas in a large bowl. Optionally, you can add a squeeze of lemon juice to prevent browning and a drizzle of honey for extra sweetness. Mix well and serve chilled.

2. Cheese Omelette:

   Beat 2-3 eggs in a bowl with a pinch of salt and pepper. Heat a non-stick pan with a little oil or butter, pour in the egg mixture, and cook until it begins to set. Add grated cheese on one side, fold the omelette over, and cook until the cheese melts. Serve with your choice of bread or toast.

3. Ham and Cheese Sandwich:

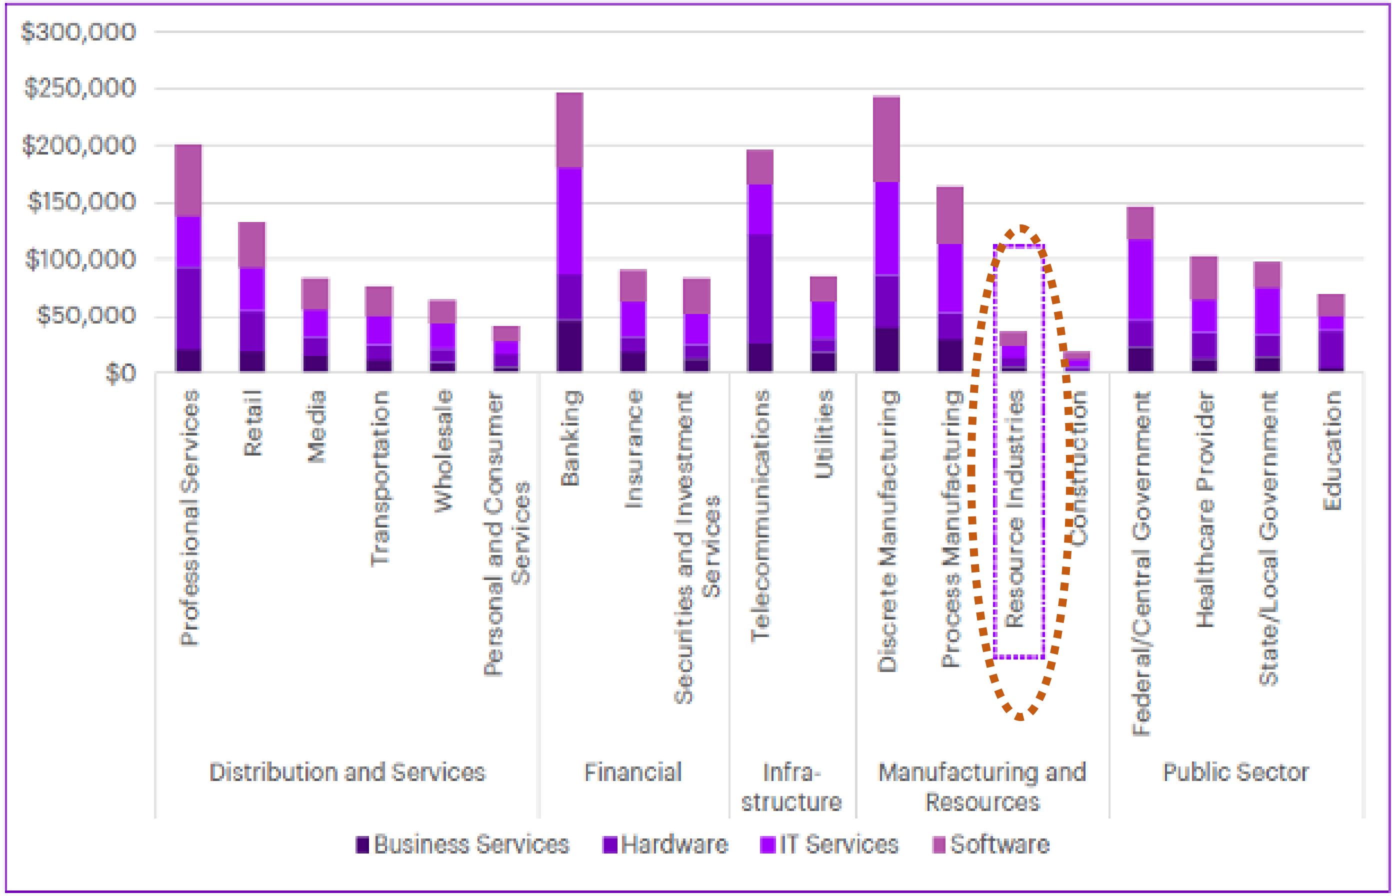
   Layer slices of lunch meat and cheese on a slice of bread. Add lettuce, tomato, or other desired toppings, then spread mustard or mayonnaise on another slice of bread and place it on top. Enjoy the sandwich as is or grill it for a warm, toasty meal.

4. Fruit Smoothie:

   Blend a mix of apples, oranges, and bananas with a cup of milk (adjust the amount to achieve desired consistency) until smooth. For added flavor, add a spoonful of honey or a few ice cubes for a cold, refreshing drink.

Nivel de Digitalización

ICT spend by industry (2019) (US$M)



Resource industries rank the second-lowest in
digital spend, at just

2%

of total cross-industry spend

Accordingly, just

54%

of employees in O&G companies feel that their company uses digital tools to promote employee innovation, collaboration and mobility

(vs 72% in High Tech)
