IN USE AROUND THE GLOBE

THE OPPORTUNITIES IN AUTOGAS

ON AVERAGE, COMPARED TO PETROL,
DRIVING ON AUTOGAS EMITS

ON AVERAGE, COMPARED TO DIESEL,
DRIVING ON AUTOGAS EMITS

CALCULATED ON A WELL-TO-WHEEL BASIS

Introduced the Kia Niro Tri-Fuel in Italy – Innovation Meets Efficiency!

- Born from Westport's partnership with Kia Italia
- First-ever OEM hybrid vehicle powered by HEV and LPG technologies
- Offers 3 fuel sources—petrol, electric, and LPG
- Delivers over 1,600 km on a full tank with reduced emissions and uncompromised performance

Globally Available Prins VSI-3 DI LPG System for the RAM 1500 Hurricane 3.0 DI Twin Turbo Engine

- Enabling customers to benefit from lower emissions and fuel costs
- Prins is the first to deliver the System for the Standard Output (420HP) and High Output (540HP) engines
- Extra driving range by combining 2 LPG tanks

HYBRID VEHICLES

Combined Heat & Power

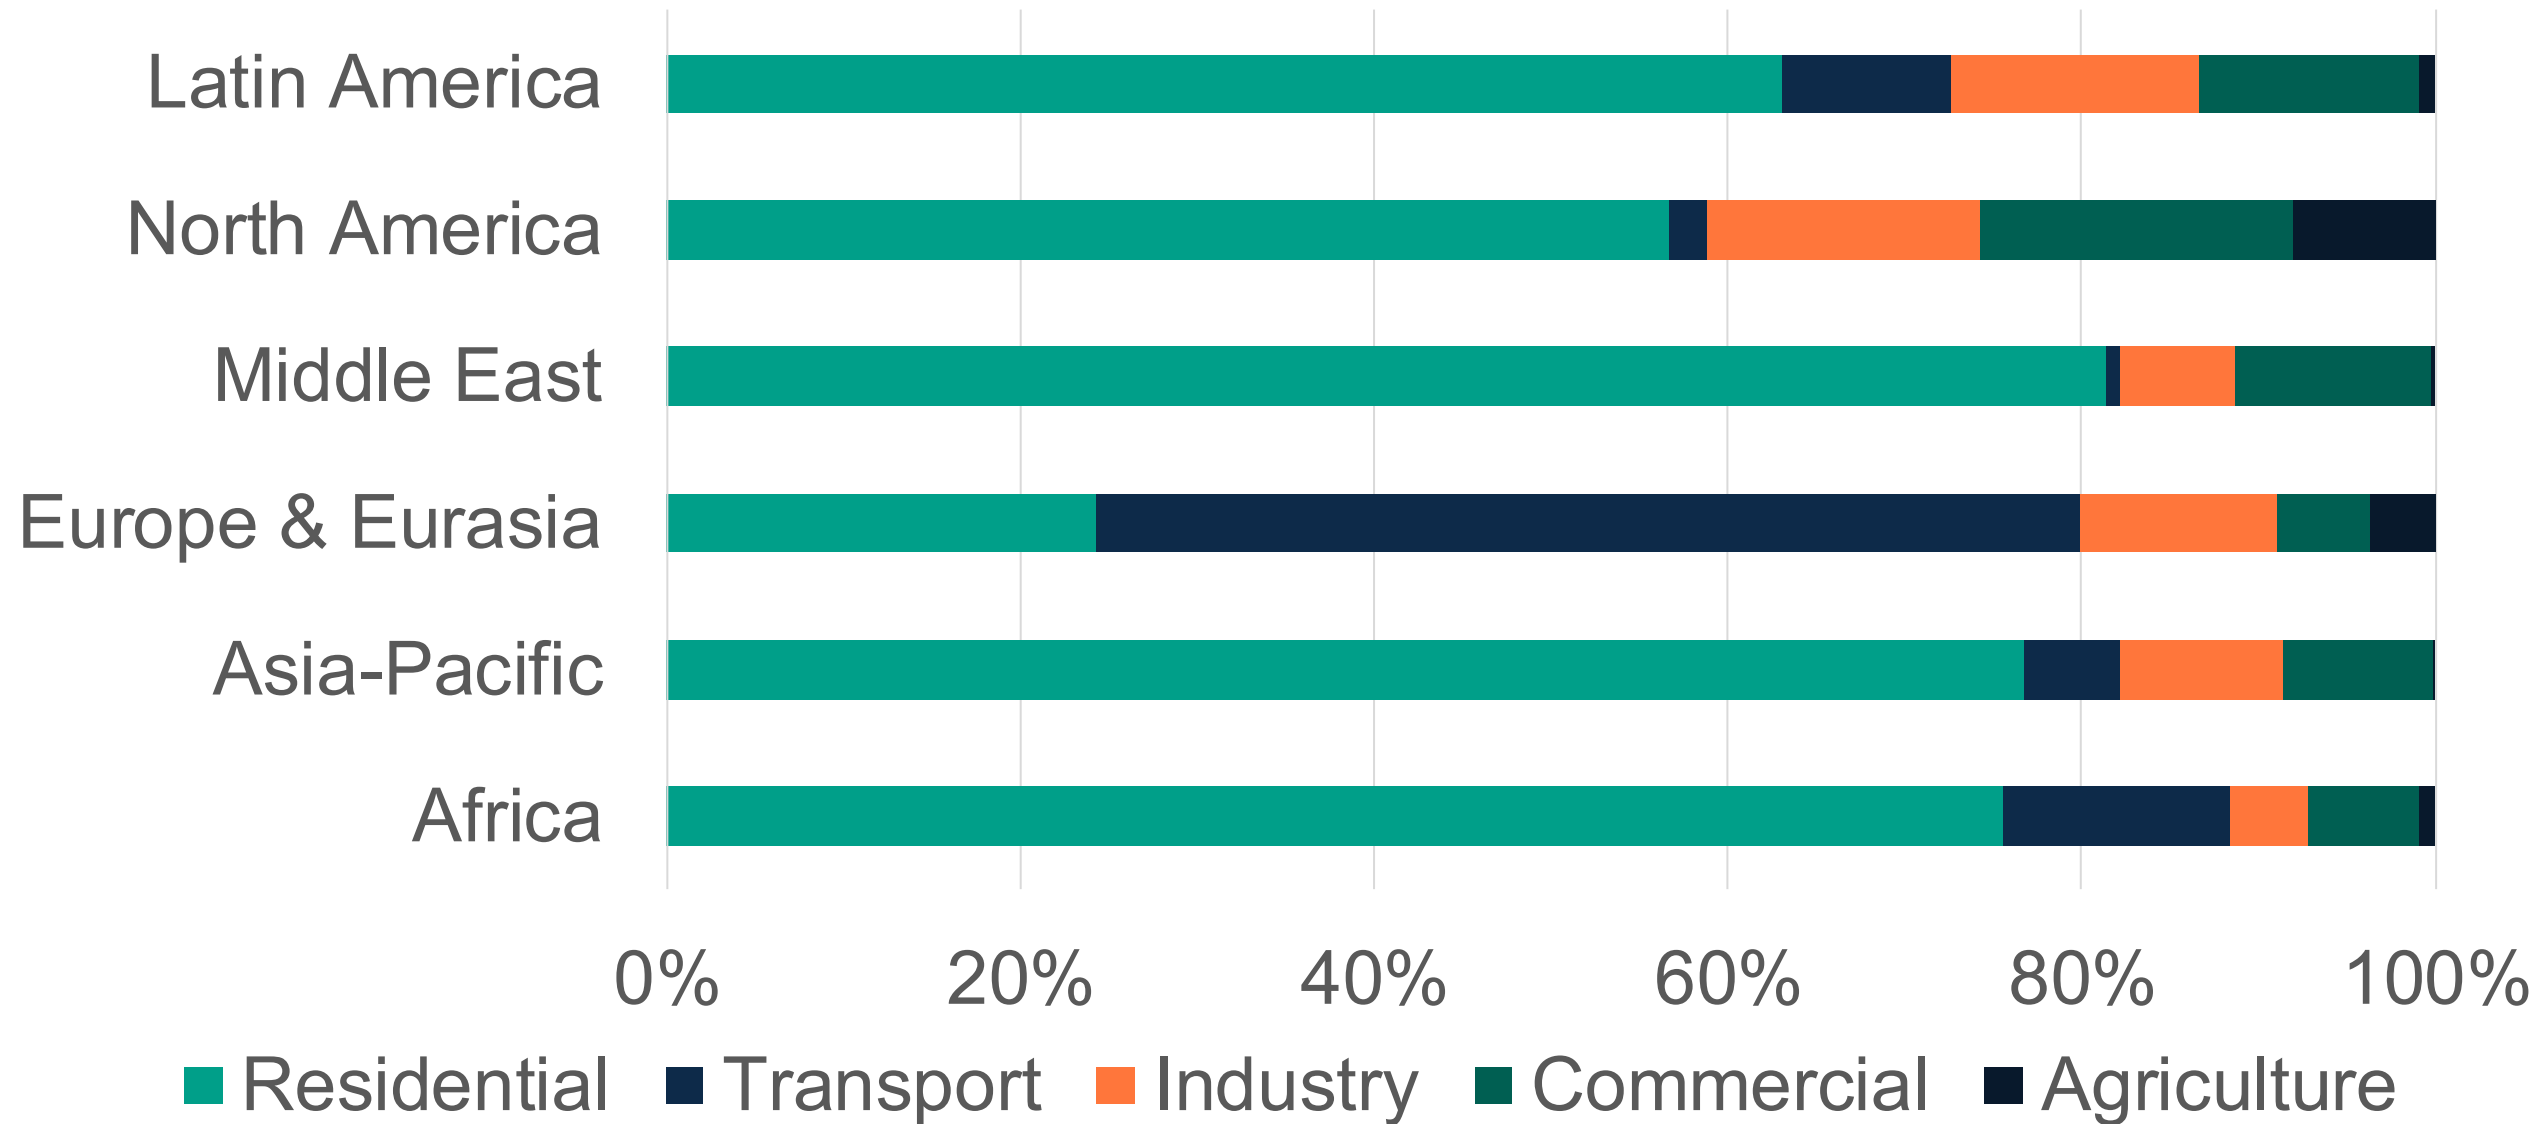

And Microgrids

THE OPPORTUNITIES OF THE FUTURE

2024 LPG Consumption by Market

 **LIQUID
GAS WEEK**
12th – 16th OCTOBER 2026 • ISTANBUL

Resilience in a Changing World

“

I look forward to joining Liquid Gas Week in Istanbul to underscore the important role that Liquid Gas, including LPG, plays in expanding reliable and affordable energy access around the world.

”
